EXTRACT FROM "THE LONDON GAZETTE" OF
FRIDAY, AUGUST 7, 1874.

At the Court at Osborne House, Isle of Wight,
the 6th day of August, 1874.

Present—The Queen's Most Excellent Majesty in
Council.

WHEREAS by an Act of Parliament made and passed in the Session of Parliament holden in the thirty-third and thirty-fourth years of the reign of Her present Majesty, intituled "*An Act for amending the law relating to the Extradition of Criminals*," it was amongst other things enacted, that where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Act shall apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient:

And whereas a Treaty was concluded on the nineteenth day of June last between Her Majesty and the King of the Netherlands, for the mutual Extradition of Fugitive Criminals, which Treaty is in the terms following:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the King of the Netherlands, having judged it expedient, with a view to the better administration of justice and to the prevention of crime within the two countries, that persons charged with or convicted of the crimes hereinafter enumerated, and being fugitives from justice, should under certain circumstances be reciprocally delivered up; their said Majesties have named as their Plenipotentiaries to conclude a Treaty for this purpose, that is to say;

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Honorable Sir Edward Alfred John Harris, a Vice-Admiral in Her Majesty's Royal Navy, Knight Commander of the Most Honorable Order of the Bath, Her Majesty's Envoy Extraordinary and Minister Plenipotentiary to His Majesty the King of the Netherlands:

And His Majesty the King of the Netherlands, M. Joseph Lodewyk Hendrik Alfred Baron Gericke van Herwynen, Commander of the Order of the Netherlands Lion, Knight Grand Cross of the Oaken Crown of Luxemburg, &c., &c., His Majesty's Minister for foreign affairs; and M. Gerrit de Vries, Commander of the Order of the Netherlands Lion, His Majesty's Minister of Justice,

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles:—

ARTICLE I.

It is agreed that Her Britannic Majesty and His Majesty the King of the Netherlands shall, on requisition made in their name by their respective Diplomatic Agents, deliver up to each other reciprocally, any persons who, being accused or convicted of any of the crimes hereinafter specified, committed within the jurisdiction of the requiring party, shall be found within the territories of the other party.

ARTICLE II.

The crimes for which the extradition is to be granted are the following:—

1. Murder (including assassination, parricide, infanticide, and poisoning), or attempt to murder.

2. Manslaughter.

3. Counterfeiting or altering money, or uttering counterfeit or altered money.

4. Forgery, counterfeiting or altering of public or private documents, including forgery, counterfeiting or altering of paper money, bank notes, or other public securities.

5. Embezzlement or larceny, comprehending any larceny that by the Netherland Penal Law is not considering as "vol simple."

6. Obtaining money or goods by false pretences, including the crimes designated in the Netherland Penal Law as speculation, abstraction, or misapplication by bailies or public accountants.

7. Crimes against Bankruptcy Law which by the Netherland Penal Law are considered as fraudulent bankruptcy.

8. Perjury.

9. Rape.

10. Arson.

The extradition is also to take place for participation in any of the aforesaid crimes, provided such participation be punishable by the laws of both the Contracting Parties

ARTICLE III.

No subject of the Netherlands shall be given up by the Government of the Netherlands to the Government of the United Kingdom; and no subject of the United Kingdom shall be delivered up by the Government thereof to the Government of the Netherlands.

With reference to the application to the present Treaty, are comprised in the denomination of "subjects," not only naturalized citizens of the country, but also such foreigners as, according to the laws of either of the Contracting Parties, are assimilated to subjects, as well as such foreigners, who being domiciled in the country, and having married a citizen thereof, have one or more children by that marriage born there.

ARTICLE IV.

The extradition shall not take place if the person claimed on the part of the Government of the United Kingdom, or the person claimed on the part of the Government of the Netherlands, has already been tried and discharged or punished, or is still under trial, in the Netherlands or in the United Kingdom, respectively, for the crime for which his extradition is demanded.

If the person claimed on the part of the Government of the United Kingdom, or if the person claimed on the part of the Government of the Netherlands, should be under examination for any other crime in the Netherlands or in the United Kingdom, respectively, his extradition shall be deferred until the conclusion of the trial, and the full execution of any punishment awarded to him.

The extradition shall also be deferred if the person claimed should be detained for debt by a sentence passed before the requisition for the surrender, under the laws of the country where he shall be found.

ARTICLE V.

The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution, or the conviction thereon, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the State applied to.

ARTICLE VI.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he prove that the requisition for his surrender has in fact been made with a view to try or to punish him for an offence of political character.

ARTICLE VII.

A person surrendered can in no case be kept in prison, or be brought to trial in the State to which the surrender has been made, for any other crime or on account of any other matters than those for which the extradition shall have taken place, until he has been restored or has had the opportunity of returning to the country from whence he was surrendered.

The period of one month shall be considered as the limit of the period during which the prisoner may, with the view of securing the benefits of this Article, return to the country from whence he was surrendered.

This stipulation does not apply to crimes committed after the extradition.

ARTICLE VIII.

The requisition for extradition shall be made through the Diplomatic Agents of the High Contracting Parties, respectively.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

A requisition for extradition cannot be founded on sentences passed *in contumaciam*.

ARTICLE IX.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

The prisoner is then to be brought before a competent Magistrate, who is to examine him and to conduct the preliminary investigation of the case, according to the laws of the country in which he is found.

ARTICLE X.

The extradition shall not take place before the expiration of fifteen days from the committal, and then only if the evidence produced in due time be found sufficient according to the laws of the State applied to.

ARTICLE XI.

A fugitive criminal may, however, be apprehended under a warrant issued by any Police Magistrate, Justice of the Peace, or other competent authority in either country, on such information or complaint, and such evidence, or after such proceedings as would, in the opinion of the person issuing the warrant, justify the issue of a warrant, if the crime had been committed or the prisoner convicted, in that part of the dominions of the two Contracting Parties in which he exercises jurisdiction: Provided however that, in the United Kingdom, the accused shall, in such case, be sent as speedily as possible before a Police Magistrate in London. He shall be discharged, as well in the United Kingdom as in the Netherlands, if within fourteen days, a requisition shall not have been made for his surrender by the Diplomatic Agent of his country.

ARTICLE XII.

If, in any criminal matter, pending in any Court or tribunal of one of the two countries, it is thought desirable to take the evidence of any witness in the other, such evidence may be taken by the judicial authorities in accordance with the laws in force on this subject in the country where the witness may be.

ARTICLE XIII.

All articles seized, which were in the possession of the person to be surrendered at the time of his apprehension, shall, if the competent authority of the State applied to for the extradition has ordered the delivery thereof, be given up when the extradition takes place; and the said delivery shall extend not merely to the stolen articles, but to everything that may serve as a proof of the crime.

ARTICLE XIV.

The High Contracting Parties renounce any claim for the reimbursement of the expenses incurred by them in the arrest and maintenance of the person to be surrendered, and his conveyance till placed on board ship, as well as for the reimbursement of the expenses incurred in taking

the evidence of any witness in consequence of Article XII. and in giving up and returning seized articles. They reciprocally agree to bear such expenses themselves.

ARTICLE XV.

The present Treaty shall come into force ten days after its publication in conformity with the forms prescribed by the laws of the High Contracting Parties. It may be terminated by either of the High Contracting Parties, but shall remain in force for six months after notice has been given for its termination.

The Treaty shall be ratified, and the ratifications shall be exchanged at The Hague as soon as possible.

In witness whereof the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

BRISBANE GENERAL CEMETERY.

THE following Rules and Regulations, made by the Trustees of the Brisbane General Cemetery, pursuant to "*The Cemetery Act of 1865*," having been approved and confirmed by His Excellency the Governor in Council, are hereby published in the *Government Gazette*

T. B. STEPHENS.

RULES AND REGULATIONS OF THE BRISBANE GENERAL CEMETERY.

1. The hours appointed for the performance of funerals are from eight o'clock a.m. to six o'clock p.m., from September to April inclusive, and from eight o'clock a.m. to five o'clock p.m., from May to August inclusive. On Sundays, the hours appointed for funerals are from two o'clock to five o'clock p.m. throughout the year. No funeral will be allowed to take place at any other time unless in cases of great urgency, and upon the written authority of two trustees, and subject to such conditions as they may impose.

2. The several fees and charges set forth in Schedule A shall be payable in respect of the several matters therein specified. All fees and charges must be paid at the time of making application for the thing or matter in respect of which they are payable.

3. The trustees, or person appointed by them for that purpose, shall determine the size and position of all graves or vaults to be sunk in the cemetery. No catacombs will be allowed.

4. No person shall be allowed to prepare a grave within the cemetery except the sexton appointed by the trustees or his assistants.

5. All graves made in the cemetery shall be sunk at least six feet: not more than two bodies of adults shall be interred in one grave.

6. Applications for interment must be made in writing to the trustees or person appointed by them for that purpose at the office of the trustees in Brisbane or at the cemetery. The application must be in the form and containing the particulars specified in schedule B, signed by the applicant, and accompanied by the proper fees.

7. An authority in the form in schedule C shall thereupon be given, which shall be the sexton's warrant for preparing the grave.

8. The person applying for the interment must deliver to the sexton the authority so given, together with a memorandum containing the particulars specified in schedule D, and signed by the applicant.

9. The hour named in the application and in the last-mentioned memorandum is to be the hour at which the funeral procession is to arrive at the cemetery: the hour so named must be punctually observed.

10. All charges will be remitted on the burial of any poor person in the cemetery (except in the case of burials by persons under contract with the Government or any public Hospital to perform such burials) upon its being proved to the satisfaction of at least three trustees that such person was a pauper, or that the relations and friends of the deceased are unable to pay the cost and charges of such burial: where paupers are buried by such contractors the charge will be in accordance with the scale set forth in schedule A.

11. Orders for interment must be given at the cemetery at least six working hours before the hour fixed for the funeral; otherwise an extra charge will be made in accordance with the scale in schedule A: no free interment will be allowed without such notice.

12. No funeral will be allowed to take place (except under circumstances of the most urgent nature and upon the written authority of two trustees, or a certificate of some duly qualified medical practitioner), without a certificate of the registration of the death, signed by the Registrar-General or his deputy, or a certificate of a coroner or magistrate holding an inquest or inquiry; such authority or certificate must be delivered to the sexton before the funeral enters the gate of the cemetery.

13. Applications for permission to have a private

grave prepared, a vault constructed, or a monument, tombstone, or tablet erected, must be made to the trustees or to the person authorised by them for that purpose; whereupon, if approved of, a permission in the form set forth in schedule E will (if required) be granted to the person applying, on payment of the charges set forth in schedule A in that behalf.

14. Persons requiring brick graves or vaults to be made in the cemetery must submit plans of them for the approval of the trustees and construct them under the direction of a surveyor appointed by the trustees: every coffin placed in a vault or brick grave must be bricked in, cemented, and covered with a slab of stone, slate, or iron; and every such coffin must have on the lid a lead or copper plate with the name of the deceased stamped thereon.

15. A copy of every epitaph or inscription proposed to be engraven or placed on any monument, tombstone, or tablet, must be submitted to the trustees for approval, and they may withhold such approval if the proposed epitaph or inscription appears to them inappropriate or unbecoming.

16. The trustees may order the removal of any monument, tombstone, or other erection, which shall not have been sanctioned by them, and of any trees or shrubs planted on or near any grave which in their opinion are objectionable.

17. All monuments, vaults, graves, and grave-stones must be kept in repair and proper condition by or at the expense of the owners.

18. The sexton and other persons employed by the trustees are not allowed to receive any gratuity for the performance of their duties without the special permission of the trustees, to be granted upon application made to them by the person interested. Any infringement of this rule will lead to the immediate dismissal of the person offending.

19. A plan of the cemetery, a register of all special grants, and of the position of all graves in the cemetery, will be kept by the trustees, and be open to inspection upon the payment of the charges mentioned in schedule A.

20. The cemetery will be open daily to the public from sunrise to sunset.

21. The sexton has orders to turn out or take into custody (as the case may require) any person who shall behave indecorously, or commit any trespass or injury to the trees, flowers, or erections; or otherwise infringe any of the provisions of the laws relating to the management of cemeteries in Queensland, or the regulations framed under the authority thereof; and any such person will be proceeded against according to law.

4. During the dark nights, and in the absence of moonlight, there shall be a light kept burning and properly trimmed, at the toll-gate, and the lessee shall provide the same.
5. All persons passing through the toll-gate, with the following exceptions, shall pay the charges fixed in Schedule A, viz.:—

6. Any tollkeeper or lessee of the bridge who shall infringe upon, or act contrary to, any clause or condition contained in these regulations, shall on conviction thereof before two or more Justices of the Peace, be subjected to a penalty not exceeding five pounds.
7. In the event of two convictions within one month against the tollkeeper or lessee of the bridge, such convictions shall cancel the lease, and the Government may at once resume the toll-gate.
8. If the lessee shall neglect to put up a scale of toll dues, as provided for in clause 2 of these regulations; or if any collector or other person employed by such lessee or tollkeeper shall not be in attendance at all times, by day and by night, at the place at which he is stationed, or ought to be; or shall demand and take dues from any person or persons who shall be exempt from payment thereof, and who shall claim such exemption; or shall, under color of his office as collector, wilfully extort from any person or persons any sum of money or thing of value whatsoever as and for or in lieu of payment of dues; or shall refuse to permit and suffer any person or persons to read, or shall in any manner hinder or prevent any person or persons from reading the inscription on such boards; or shall refuse to tell his christian and surname to any person or persons who shall demand to know the same on being paid the said dues, or any of them, or shall, in answer, give a false name or names; or, upon legal dues being tendered or paid, shall detain or wilfully obstruct, hinder, or delay any passenger or passengers from passing through the toll-gate; or if such collector shall make use of any scurrilous or abusive language to any traveller or passenger; then, and in each and every such case, the said lessee or tollkeeper shall forfeit and pay, for every such offence, any sum not exceeding five pounds, to be recovered before any two of Her Majesty's Justices of the Peace.

ELECTRIC TELEGRAPH LINES.

GYMPIE TO TEWANTIN.

MARYBOROUGH TO INSKIP POINT.

SEPARATE Tenders will be received at the Office of the Superintendent of Electric Telegraphs, Brisbane, until Noon on **MONDAY**, the 30th day of November next, from persons desirous of contracting for the supply of all material, except wire and insulators, and for all workmanship necessary for the erection of the undermentioned lines of telegraph, according to the terms, general conditions, and specifications appended hereto.

Tenders must state separately—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles, where necessary.
3. Price, per foot, for extra length poles, where necessary.
4. Price, per mile, for affixing insulators and stretching wire.

1. From Gympie to Tewantin, a distance of thirty-three miles, more or less.

2. From Maryborough, on present line, to Tiaro by additional wire, and thence to Inskip Point, a total distance of thirty-eight miles, more or less.

Each contract to be completed and handed over to the Government within three (3) months from the notification of the acceptance of the Tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such reports and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The Government reserves to itself the right to make use of the line for the transmission of messages, prior to final completion. Such use of the line not to prejudice in any way the power to subsequently reject or condemn any portion of the work or materials.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a Bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the Bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each Tender there must be a memorandum signed by the party tendering and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted; and undertaking in that event, that they will severally execute and deliver, at the Office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

The Government does not bind itself to accept the lowest or any Tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of (20) feet from each pole to be cleared away, and a good straight bridle-track of not less than eight (8) feet in width to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway.

In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards, over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron of not less than one (1) inch wide.

The top of each pole to be bored for the insulator pin, and served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied and fixed as directed.

Insulator pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the Office of the Superintendent of Electric Telegraphs, Brisbane.

BRISBANE GENERAL CEMETERY.

THE following Rules and Regulations, made by the Trustees of the Brisbane General Cemetery, pursuant to "The Cemetery Act of 1865," having been approved and confirmed by His Excellency the Governor in Council, are hereby published in the *Government Gazette*.

T. B. STEPHENS

RULES AND REGULATIONS OF THE BRISBANE GENERAL CEMETERY.

1. The hours appointed for the performance of funerals are from eight o'clock a.m. to six o'clock p.m., from September to April inclusive, and from eight o'clock a.m. to five o'clock p.m., from May to August inclusive. On Sundays, the hours appointed for funerals are from two o'clock to five o'clock p.m. throughout the year. No funeral will be allowed to take place at any other time unless in cases of great urgency, and upon the written authority of two trustees, and subject to such conditions as they may impose.

2. The several fees and charges set forth in Schedule A shall be payable in respect of the several matters therein specified. All fees and charges must be paid at the time of making application for the thing or matter in respect of which they are payable.

3. The trustees, or person appointed by them for that purpose, shall determine the size and position of all graves or vaults to be sunk in the cemetery. No catacombs will be allowed.

4. No person shall be allowed to prepare a grave within the cemetery except the sexton appointed by the trustees or his assistants.

5. All graves made in the cemetery shall be sunk at least six feet: not more than two bodies of adults shall be interred in one grave.

6. Applications for interment must be made in writing to the trustees or person appointed by them for that purpose at the office of the trustees in Brisbane or at the cemetery. The application must be in the form and containing the particulars specified in schedule B, signed by the applicant, and accompanied by the proper fees.

7. An authority in the form in schedule C shall thereupon be given, which shall be the sexton's warrant for preparing the grave.

8. The person applying for the interment must deliver to the sexton the authority so given, together with a memorandum containing the particulars specified in schedule D, and signed by the applicant.

9. The hour named in the application and in the last-mentioned memorandum is to be the hour at which the funeral procession is to arrive at the cemetery: the hour so named must be punctually observed.

10. All charges will be remitted on the burial of any poor person in the cemetery (except in the case of burials by persons under contract with the Government or any public Hospital to perform such burials) upon its being proved to the satisfaction of at least three trustees that such person was a pauper, or that the relations and friends of the deceased are unable to pay the cost and charges of such burial: where paupers are buried by such contractors the charge will be in accordance with the scale set forth in schedule A.

11. Orders for interment must be given at the cemetery at least six working hours before the hour fixed for the funeral; otherwise an extra charge will be made in accordance with the scale in schedule A: no free interment will be allowed without such notice.

12. No funeral will be allowed to take place (except under circumstances of the most urgent nature and upon the written authority of two trustees, or a certificate of some duly qualified medical practitioner), without a certificate of the registration of the death, signed by the Registrar-General or his deputy, or a certificate of a coroner or magistrate holding an inquest or inquiry; such authority or certificate must be delivered to the sexton before the funeral enters the gate of the cemetery.

13. Applications for permission to have a private grave prepared, a vault constructed, or a monument, tombstone, or tablet erected, must be made to the trustees or to the person authorised by them for that purpose; whereupon, if approved of, a permission in the form set forth in schedule E will (if required) be granted to the person applying, on payment of the charges set forth in schedule A in that behalf.

14. Persons requiring brick graves or vaults to be made in the cemetery must submit plans of them for the approval of the trustees and construct them under the direction of a surveyor appointed by the trustees: every coffin placed in a vault or brick grave must be bricked in, cemented, and covered with a slab of stone, slate, or iron; and every such coffin must have on the lid a lead or copper plate with the name of the deceased stamped thereon.

15. A copy of every epitaph or inscription proposed to be engraven or placed on any monument, tombstone, or tablet, must be submitted to the trustees for approval, and they may withhold such approval if the proposed epitaph or inscription appears to them inappropriate or unbecoming.

16. The trustees may order the removal of any monument, tombstone, or other erection, which shall not have been sanctioned by them, and of any trees or shrubs planted on or near any grave which in their opinion are objectionable.

17. All monuments, vaults, graves, and grave-stones must be kept in repair and proper condition by or at the expense of the owners.

18. The sexton and other persons employed by the trustees are not allowed to receive any gratuity for the performance of their duties without the special permission of the trustees, to be granted upon application made to them by the person interested. Any infringement of this rule will lead to the immediate dismissal of the person offending.

19. A plan of the cemetery, a register of all special grants, and of the position of all graves in the cemetery, will be kept by the trustees, and be open to inspection upon the payment of the charges mentioned in schedule A.

20. The cemetery will be open daily to the public from sunrise to sunset.

21. The sexton has orders to turn out or take into custody (as the case may require) any person who shall behave indecorously, or commit any trespass or injury to the trees, flowers, or erections; or otherwise infringe any of the provisions of the laws relating to the management of cemeteries in Queensland, or the regulations framed under the authority thereof; and any such person will be proceeded against according to law.

The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

Attached to each Tender there must be a memorandum signed by the party tendering and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted; and undertaking in that event, that they will severally execute and deliver, at the Office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

NOTICE TO EXPORTERS OF STOCK.

THE attention of persons engaged in shipping cattle from Queensland ports to New Zealand is especially called to the following sections of "The Diseased Cattle Act Amendment Act, 1873," in force in that colony:—

6. From and after the first day of April, one thousand eight hundred and seventy-four, no cattle shipped to New Zealand from any foreign district shall be landed in New Zealand unless the owner of such cattle shall produce to the Cattle Inspector at the port or place in New Zealand where the same shall arrive, a certificate in writing, signed by a duly qualified veterinary surgeon, to the effect that such cattle were inspected and examined by him immediately before shipment, and that they were at the time of such examination and shipment free from any contagious or infectious disease whatever, and which would be likely to propagate amongst men or animals any such contagious or infectious disease, or any other disease.

7. Every such certificate of inspection and examination shall be attested before a Justice of the Peace or a notary public.

Every such certificate so attested before a Justice of the Peace or a notary public as aforesaid shall, for all purposes, be receivable in the colony as sufficient evidence of compliance with the provisions of this Act by any such owner as aforesaid.

8. From and after the passing of this Act, no cattle imported from any foreign district shall be landed at any port or place in the Colony of New Zealand except at a port proclaimed to be a port where cattle may be landed; and such cattle shall only be landed at such place in such port as the Local Cattle Board may from time to time appoint.

The Governor may from time to time proclaim such ports within the colony as he thinks fit to be ports at which cattle may be landed; and from and after the publication of such Proclamation in the *New Zealand Gazette*, cattle shall be landed at such proclaimed port, and at no other port or place.

9. Whenever it shall appear to the Local Cattle Board that any such cattle as last aforesaid are affected with any disease which is by this Act, or may hereafter be, declared to be a disease for the purposes of this Act, the Local Cattle Board at the port or place where such cattle shall arrive shall cause the same to be forthwith destroyed, and the owner thereof shall not be entitled to any compensation whatsoever for the cattle so destroyed.

Whenever cattle imported from a foreign district shall be driven or taken to a quarantine ground, or to any place to be appointed under this Act as a place to which cattle shall be driven or taken, such cattle shall be kept therein at the risk and expense of the owner for such period as may be prescribed by any regulations to be made in that behalf. And in case any such disease as aforesaid shall break out amongst such cattle when in quarantine, or in such place as aforesaid, the same shall be destroyed by the owner on being required to do so by the Local Cattle Board, and such owner shall not be entitled to any compensation whatsoever by reason of such destruction.

HYDROGRAPHIC NOTICE.

THE following continuation of the remarks of Lieut. L. S. Dawson, R.N., Admiralty Surveyor, upon the east coast of New Guinea, Goschen Strait, and islands lately surveyed in H.M.S. "Basilisk," have been made by order of Commodore James G. Goodenough, and are promulgated for general information.

ISLANDS OFF THE EAST COAST OF NEW GUINEA.

Heath Island to East Cape.

Heath Island, the western of the recently discovered islands on the east coast of New Guinea, is situated about 17 miles E.N.E. from the peak of the west Brumer Island, and is 4½ miles long north-east and south-west, by about a mile broad. Of

its two peaks, the southern is a little the highest, rising to an altitude of about 1,000 feet. They appear in the shape of a saddle from the east or westward, are well defined, and thickly wooded, forming a conspicuous mark for the whereabouts of China Strait and Possession Bay (Hayter Island). The island has patches of well-cultivated ground, and on its eastern side are two villages. A small woody islet lies about a cable eastward of its eastern centre, and a reef, having on it three prominent rocks, surmounted with small trees, runs half-a-mile south-east from its south-east point. An off-lying reef of flat-topped rocks, about a cable in extent, and 10 feet above water, is situated about 8 cables south-east from the same point, and between them and the shore reef is a depth of 17 fathoms. Midway between Heath and Blanchard Island (to the south-east), and about 1½ mile S. by E. of the south-east point of the former, are three small islets, lying in a north-west and south-east direction, the middle being the highest (about 250 feet); they are rocky and wooded, but were not closely examined, or sounded around.

Blanchard Island—S.E. by E., 3¼ miles from the south-east point of Heath Island, is nearly two miles long E.S.E. and W.N.W., by about a mile in breadth. Its two most prominent peaks are situated near the north-east and south-west extremities. Of these, the north-east, which is the summit of the island, rises to an estimated height of 450 feet. An islet, about half-a-mile long, lies at a cable's distance from the south-east point of the island; it is well wooded, and a village was seen in a small sandy bay on its north-west side. No landing was effected here, nor were the depths in the vicinity ascertained.

Beehive Islet—so named from its shape—is small, steep, rocky, and about 250 feet high. It is rather more than two miles S.E. of the south-east point of Blanchard Island, and affords a good mark, appearing steep-to, and free from surrounding dangers.

The Coast of New Guinea, from the point of the main land north-eastward of the Leocadie Isles to the point immediately north of Heath Island, trends in a north-easterly direction for about twelve miles, and consists of high ranges of hills, intersected by woody valleys, descending in some places to the water's edge. Two reefs, having but little water upon them, lie about a mile, and a mile and a half from the coast, 2½ and 3 miles respectively from Leocadie Point; and a small islet, particulars of which have not been ascertained, is situated N.E. by E. ½ E. 5 miles from the same point, and about a mile from the coast. Between Heath Island and the point immediately north of it, is a channel leading into China Strait, in which soundings of 16 fathoms were obtained in the "Basilisk" during the survey of 1873, but further north it becomes narrowed by four scattered islets, and is not recommended.

China Strait, dividing the south-east part of New Guinea from Hayter Island, is about four miles long, N.E. by N. and S.W. by S., by rather more than three-quarters of a mile wide in its narrowest part. It was formerly thought that this strait might afford a shorter route to China, hence its name; but upon further examination, it was found that the intricacy of the navigation to the north-eastward of it, caused by the many obstructing reefs there situated, was so great as to render preferable the route some 25 miles farther east.

The depths in the strait vary from 24 fathoms, sandy bottom, eastward of, and between Dinner Islet and Hayter Island, to 18 fathoms, mud, abreast Scramble Point. The only danger noted in a cursory examination, was a 4-fathom patch, about half a cable westward of Steep Point.

Anchorage may be found in Possession Bay in about 12 fathoms, mud, three cables from the shore, and out of the influence of the tides, on the Hayter Island side of the strait.

Tides.—It is high water, full and change, in Possession Bay at 8 h. Springs rise about 5 feet, and neaps 2 feet 6 inches. The stream of flood sets to the northward, and that of ebb to the southward, following the direction of the strait, and reaching at springs, a velocity of 5 knots an hour.

In shore, on the eastern side of the strait, there is at times an eddy tide, setting in the opposite direction to that of the tide in the centre of the strait. It appeared from observations extending over a period of fourteen days, that although there was a constant change in the time of high water, that the time of low water was always at about 3 h. p.m. The direction, strength, and duration of the wind, appeared to have a marked effect upon the tides.

Coast, Middle, and Dinner Islets are small, similar in appearance, and situated at the south-west entrance to China Strait. Coast Islet is the highest of the three (about 300 feet), and lies in the mouth of a small bight of the main land.

Dinner Islet is nearly mid-channel between Hayter and Heath Islands. Its summit is near its northern end, and it has a small sand-beach on its north-east side.

Middle Islet is equidistant from Coast and Dinner Islets, resembling the latter in appearance, and bears from it N.N.W., distant 9 cables. All are thickly wooded, and fringed with coral reef.

The *Coast of New Guinea*, from the point abreast Coast Island, trends north-east for $2\frac{1}{2}$ miles, after which it gradually curves round to N. by W. to the North Foreland, and has but slight indentations; it is bold and thickly wooded, rising in steep inclines from the water's edge to an altitude of about 1,500 feet, with deep ravines, becoming more extensive and marked, as the North Foreland is approached. Depths of 24 fathoms, coral, were found at a distance of about $1\frac{1}{2}$ mile from the shore, but this can afford no criterion to the surrounding soundings, which are probably much deeper. A 4-fathom coral patch lies about a mile S.E. by E. of the North Foreland, and discolored water having an apparent depth of about 4 fathoms upon it, lies about $1\frac{1}{2}$ mile E. by N. $\frac{1}{4}$ N. of the same headland, the position of the latter danger being doubtful.

North Foreland is a steep, bluff, rounded, headland, forming the north-east point of the southern prong of the fish-tail, to which the eastern part of New Guinea may be likened. To the westward of it, the coast forming the southern shore of Milne Bay continues its bold, steep nature, and is slightly indented by a succession of small bays, which have not been minutely examined. Small cascades of fresh water abound in this part, suitable for ships in quest of that necessary.

Spike Island lies about $1\frac{1}{2}$ mile north-westward of the round of the North Foreland; it is low and woody, and about a mile in length, north-west and south-east. A coral reef surrounds it, and connects it with the shore reef of the mainland, over which there is a narrow boat channel.

Anchorage.—The "Basilisk" anchored in 14 fathoms, about 3 miles westward of Spike Island; and the "Sandfly," in 1874, anchored in the same vicinity, and replenished with excellent water.

Milne Bay, which separates the north-east and south-east arms of the eastern part of New Guinea, runs in, in a westerly direction, and is about 25 miles deep, with an average breadth of 8 miles. The Owen Stanley Range, which may be called the back-bone of Eastern New Guinea, terminates at its head, and, running parallel to it, separated by extensive valleys, are the Cloudy Mountain and Stirling Ranges. Villages are numerous, and there is much cultivation on its southern shore. The water here is very deep—no bottom with 200 fathoms of line being found about half way into the bay, midway between, or 4 miles distant from, either shore.

Discovery Bay is situated about 16 miles westward of Spike Island. The following is extracted from Captain Moresby's report of 1873:—"This remarkably snug anchorage is situated on the south shore of Milne Bay, about 5 miles from its head. Approaching it from seaward, the eastern part appears low and wooded; on nearer approach, the anchorage is distinctly marked by a reef above water, with one small bush on it. The entrance lies between this reef and the eastern point of the bay. Ships should keep the eastern bight of the cove on board, as the shore there is steep-to, there being 8 fathoms within a few yards of the beach, whilst the western side has an extensive shore reef, not always discernible,

"*Water.*—That which runs through the village is not recommended, but round either the east or west points of the bay, abundance of fresh water may be obtained.

"*Supplies of pigs, yams, and many varieties of tropical fruit and vegetables, were obtained from the natives, in exchange for old iron-hoop and axes; any other articles of trade were comparatively useless.*"

Aleford Islets, four in number, small and surrounded by reefs, are situated at the head of Milne Bay, at a distance of about a mile from the shore. The depths outside them, increase from 10 fathoms, half-a-mile off, to 20 and 30 fathoms at distances of $1\frac{1}{2}$ and $2\frac{1}{2}$ miles. Many large canoes were seen in this neighborhood, and the manner of the natives towards Europeans was anything but timorous.

Immediately to the north of the Aleford Islets, the coast of Milne Bay appears to be low, with foul ground extending some distance from the shore; it then sweeps in a series of small, steep, bights along the foot of the Stirling Range, for about 20 miles, in an easterly direction, until abreast the Killerton Islands, where a more extensive bay occurs, in which anchorage may be found.

Killerton Islands are three in number, lying in an east and west direction, nearly equidistant from each other, and varying in distance from the shore, from a quarter of a mile to a mile. They are low and well wooded, and anchorage may be found between the eastern island and the shore of the bay, in from 12 to 13 fathoms, sandy bottom. The space between the islands, as well as between the two western islands and the shore, is blocked with coral reef; and three dry patches extend to a distance of three-quarters of a mile southward of the middle island. The passage to the anchorage is from the eastward, keeping mid-channel between the eastern island and the shore; caution is necessary, as coral patches abound near all the islands. The anchoring ground is about a third of a mile southward of the village. When the "Basilisk" first visited this place, the natives brought a dog on board, and sacrificed it by dashing its head on the quarter-deck, apparently as a peace offering to ratify friendship.

Mount Killerton in the Stirling Range, rising immediately above the Killerton Islands to an altitude of about 1,357 feet, is a conspicuous mountain, having rather a wide-spread summit, with rounded shoulders. From the south-east and north-west the summit makes in three round knobs or elevations, of which the centre is the highest. In approaching Goschen Strait from the westward, this mountain affords a good mark, the top being seldom clouded.

From Killerton Islands the long narrow promontory, forming the northern horn of the eastern portion of New Guinea, trends N.E. by E. for about 10 miles to East Cape, forming four successive bays, the depth of water in which has not been ascertained. The hills forming the ridge of this promontory, are of regular shape, and well defined, gradually decreasing in altitude as East Cape is approached. The two peaks next, east of Mount Killerton, are tufted, a small group of large trees growing near the summit of each. Eastward of these, the hollows between the hills become deeper, giving to them when seen at a distance the appearance of islands.

East Cape of New Guinea is the extremity of the promontory just described, the hills of which end in a double summit 388 feet high, thickly wooded on the north-west, but clear and well cultivated on the north-east side. A narrow strip of sand-beach here fringes the coast, and a village possessing a few canoes is situated close to the water's edge. From the eastern summit of East Cape, the summit of Lydia Island bears E. by S., distant $9\frac{1}{2}$ miles, and Cape Prevost, of Normanby Island (D'Entrecasteaux Group), N.N.E. $\frac{1}{4}$ E., distant 9 miles.

The natives, though formerly friendly, during a second visit, appeared shy, and could with difficulty only be persuaded to accompany the surveying party to the peak, although all endeavor was made to propitiate them with hoop-iron and red handkerchief, and it was with evident relief that they saw the boats take their departure.

Anchor and Chain Islets, situated on a tongue of coral reef, north-east and south-west of each other, $1\frac{1}{2}$ mile apart, and north-east of East Cape, are small, low, and thickly-wooded. Anchor Islet is the larger of the two, and nearest to East Cape, from which it is separated by a narrow boat channel, through which the tide sets with considerable velocity. It is half-a-mile long, by about a cable broad, and near the southern centre a grassy mound rises to a level with the tops of the trees, with which it is thickly clothed. The coral reef from which it springs, extends from its northern side to a distance of half-a-mile, and has several boulder rocks above water.

Chain Islet is nearly a third of a mile in length, east and west, by a cable in breadth, densely wooded, and surrounded by a narrow strip of sand-beach. Midway between these two islets, a dip takes place in the coral reef, and a sand-bank near the centre of the channel between them, shows dry at all times of tide.

To the southward of Anchor and Chain Islets, and between them and Lydia Island, the depths are irregular, and numerous coral reefs, upon which the sea often breaks, block up what would otherwise be the shortest route through Goschen Strait.

The east coast of New Guinea has now been followed from what was formerly erroneously termed Heath Point (now Heath Island), and the point immediately north of the Leocadie Islands, where the description given in vol. 2, second edition of the Australian Directory, page 380, ceases to be correct, to the newly-discovered East Cape as found by Captain J. Moresby. The islands to the southward, discovered by the same officer, will be next described, together with the islands, rocks, and dangers, found existing in this locality, during the recent survey.

The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The Government reserves to itself the right to make use of the line for the transmission of messages, prior to final completion. Such use of the line not to prejudice in any way the power to subsequently reject or condemn any portion of the work or materials.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the Bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each Tender there must be a memorandum signed by the party tendering and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted; and undertaking in that event, that they will severally execute and deliver, at the Office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

The Government does not bind itself to accept the lowest or any Tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of (20) feet from each pole to be cleared away, and a good straight bridle-track of not less than eight (8) feet in width to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway.

In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards, over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron of not less than one (1) inch wide.

The top of each pole to be bored for the insulator pin, and served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied and fixed as directed.

Insulator pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the Office of the Superintendent of Electric Telegraphs, Brisbane.

PAYMENT OF RENTS UNDER "THE LEASING ACT OF 1866."

Department of Public Lands,
Brisbane, 23rd November, 1874.

THE attention of Lessees of lands selected under the provisions of "*The Leasing Act of 1866*" is directed to the provisions of the sixth clause thereof, which provides that—"The rent for the second and every succeeding year shall be paid in cash in advance to the Treasury, in Brisbane, and in default of such payment in advance, the lease shall be forfeited, and the land and all improvements thereon shall revert to the Crown; but the Lessee may defeat such forfeiture by paying into the Treasury, in Brisbane, in cash, within ninety days of such original rent day, a sum equal to the annual rent, together with an additional sum equal to one-fourth part thereof by way of penalty."

The rents under this Act are due on the 1st of January in each year.

For the convenience of Lessees who reside at a distance from Brisbane, the Local Land Agents have been instructed to receive and transmit, on behalf of the Treasury, the rents of such lands as have been selected at such local offices.

The accompanying schedule contains all selections made under "*The Leasing Act of 1866*," excepting those which have been forfeited for non-payment of rent. Rents which may be received upon such of these selections as may have been forfeited by operation of law, will be deemed to have been received conditionally, and without prejudice to the right of the Government to deal with the same according to the provisions contained in the Act in that behalf.

Postmaster-General's Office,
Brisbane, 19th November, 1874.

IT is hereby notified for general information that on and after the 1st January, 1875, the period during which British Money Orders are current will be extended from (6) six months to (12) twelve months.

Rules 33, 34, 35, 64, and 67 have been amended as under.

GEORGE THORN, JUNIOR.

RULES AS AMENDED.

33. Payment of an Inland or Intercolonial Money Order must be obtained before the end of the sixth calendar month after that in which it was issued (for instance, if issued in January, it must be paid before the end of July), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission, to be deducted from the amount of the order, will be charged (*vide* Rule 34). Payment of a British Money Order may be obtained up to the end of the twelfth calendar month after that in which it was issued, without being renewed as in the case of inland and intercolonial orders. If the order be not paid before the end of the twelfth calendar month after that in which it was drawn (for instance, if drawn in January, and not paid before the end of the following January), all claim to the money is forfeited, unless, under peculiar circumstances, the Postmaster-General of the country in which the order was issued thinks proper to allow it.

34. Any person presenting a lapsed Inland or Intercolonial Order must be furnished with a printed form headed "Lapsed Money Orders," and directed to proceed in accordance with Rules 66 and 67.

35. At the end of each month the advices on hand must be examined; and such as relate to orders which have ceased to be payable (*vide* Rule 33) must be sent to the Head Office, Brisbane, with the usual list of unpaid orders. The word "lapsed," in the case of Inland and Intercolonial, and the word "forfeited," in the case of British, must be written against the entry on the list and in the Advice Book. The list must be compared with the Advice Book, and they must agree.

64. When repayment of a lapsed Inland or Intercolonial or a forfeited British Order (or an order that will be lapsed or forfeited before repayment can be authorised) is requested, the order, signed by the remitter, must accompany the application.

67. Application for payment of a lapsed Money Order, issued in Queensland on the Australian Colonies or New Zealand, must be made to the respective chief office of the colony where the order is payable.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such reports and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The Government reserves to itself the right to make use of the line for the transmission of messages, prior to final completion. Such use of the line not to prejudice in any way the power to subsequently reject or condemn any portion of the work or materials.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a Bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the Bond to be entered

into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each Tender there must be a memorandum signed by the party tendering and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted; and undertaking in that event, that they will severally execute and deliver, at the Office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

The Government does not bind itself to accept the lowest or any Tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of (20) feet from each pole to be cleared away, and a good straight bridle-track of not less than eight (8) feet in width to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway.

In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards, over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron of not less than one (1) inch wide.

The top of each pole to be bored for the insulator pin, and served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied and fixed as directed.

Insulator pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the Office of the Superintendent of Electric Telegraphs, Brisbane.

IT is hereby notified for general information that on and after the 1st January, 1875, the period during which British Money Orders are current will be extended from (6) six months to (12) twelve months.

Rules 33, 34, 35, 64, and 67 have been amended as under.

GEORGE THORN, JUNIOR.

RULES AS AMENDED.

33. Payment of an Inland or Intercolonial Money Order must be obtained before the end of the sixth calendar month after that in which it was issued (for instance, if issued in January, it must be paid before the end of July), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission, to be deducted from the amount of the order, will be charged (*vide* Rule 34). Payment of a British Money Order may be obtained up to the end of the twelfth calendar month after that in which it was issued, without being renewed as in the case of inland and intercolonial orders. If the order be not paid before the end of the twelfth calendar month after that in which it was drawn (for instance, if drawn in January, and not paid before the end of the following January), all claim to the money is forfeited, unless, under peculiar circumstances, the Postmaster-General of the country in which the order was issued thinks proper to allow it.

34. Any person presenting a lapsed Inland or Intercolonial Order must be furnished with a printed form headed "Lapsed Money Orders," and directed to proceed in accordance with Rules 66 and 67.

35. At the end of each month the advices on hand must be examined; and such as relate to orders which have ceased to be payable (*vide* Rule 33) must be sent to the Head Office, Brisbane, with the usual list of unpaid orders. The word "lapsed," in the case of Inland and Intercolonial, and the word "forfeited," in the case of British, must be written against the entry on the list and in the Advice Book. The list must be compared with the Advice Book, and they must agree.

64. When repayment of a lapsed Inland or Intercolonial or a forfeited British Order (or an order that will be lapsed or forfeited before repayment can be authorised) is requested, the order, signed by the remitter, must accompany the application.

67. Application for payment of a lapsed Money Order, issued in Queensland on the Australian Colonies or New Zealand, must be made to the respective chief office of the colony where the order is payable.

WHEREAS divers subjects of Her Majesty the Queen of Great Britain and Ireland have from time to time settled in the Fijian group of Islands, and have acquired property, or certain pecuniary interests therein; And whereas the Fijian Chief Thakombau, styled Tui Viti and Vunivalu, and other high Chiefs of the said islands, are desirous of securing the promotion of civilisation and Christianity, and of increasing trade and industry within the said islands; And whereas it is obviously desirable in the interests as well of the native as of the white population, that order and good government should be established therein; And whereas the said Tui Viti and other high Chiefs have conjointly and severally requested Her Majesty the Queen of Great Britain and Ireland aforesaid, to undertake the government of the said islands henceforth; And whereas, in order to the establishment of British Government within the said islands, the said Tui Viti and other the several high Chiefs thereof, for themselves and their respective tribes, have agreed to cede the possession of, and the dominion and sovereignty over the whole of the said islands, and over the inhabitants thereof, and have requested Her said Majesty to accept such Cession,—which Cession the said Tui Viti and other high Chiefs, relying upon the justice and generosity of Her said Majesty, have determined to tender unconditionally,—and which Cession on the part of the said Tui Viti and other high Chiefs is witnessed by the execution of these presents, and by the formal surrender of the said territory to Her said Majesty; And whereas His Excellency Sir HERCULES GEORGE ROBERT ROBINSON, Knight Commander of the Most Distinguished Order of St. Michael and St. George, Governor, Commander-in-Chief, and Vice-Admiral of the British Colony of New South Wales and its Dependencies, and Governor of Norfolk Island, hath been authorised and deputed by Her said Majesty to accept on Her behalf the said Cession:—

4. That the absolute proprietorship of all lands, not shown to be now alienated, so as to have become *bona fide* the property of Europeans, or other Foreigners, or not now in the actual use or occupation of some Chief or tribe, or not actually required for the probable future support and maintenance of some Chief or tribe, shall be and is hereby declared to be vested in Her said Majesty, Her Heirs and Successors.

3rd. Any miner or miners who have done six consecutive months' work in any registered claim, which is then not deemed payable under the Regulations, may apply to the Warden (after having posted a notice on the claim of his or their intention so to do, three clear days before making the application), to have his or their claim exempted from work for any period not exceeding six months, for any *bona fide* and sufficient reasons to be stated in the notice posted, and in the application to the Warden, and the Warden, if satisfied that the grounds upon which the application is made are good and sufficient, may register the claim as exempt from work for any period not exceeding six months, upon payment of a fee of ten shillings.

The

Attached to each Tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted; and undertaking in that event, that they will severally execute and deliver at the Office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty, in a sum equal to twenty (20) per cent. on the amount of the Tender.

BYE-LAW No. 20.

MUNICIPAL COUNCIL, BRISBANE.

A Bye-law for the prevention and suppression of the nuisance resulting from the storage of large quantities of Kerosine Oil, Petroleum, Naphtha, Turpentine, or other similar volatile fluid or fluids in ordinary stores or buildings within the city of Brisbane.

WHEREAS it is necessary to make provision for the prevention and suppression of the nuisance and danger resulting from the storage of large quantities of kerosine oil, petroleum, naphtha, turpentine, or other similar volatile fluid or fluids, in ordinary stores or buildings within the city of Brisbane; and whereas a practice has lately arisen of storing in shops, warehouses, and buildings within the said city, adjacent or contiguous to other shops, warehouses, dwelling-houses, and tenements, large quantities of kerosine oil, petroleum, naphtha, turpentine, and other volatile fluids, liable to ignite at low temperature, and to explode, to the danger of the lives and property of the residents, tenants, and owners in such other shops, warehouses, and tenements, and of other the citizens of the said city, which practice is therefore a nuisance, and it is expedient to prevent and suppress the same:

It is, therefore, ordered by the Municipal Council for the said city of Brisbane, with the approval of the Governor in Council, as follows:—

1. That from and after the date of this bye-law coming into operation, no greater quantity than one hundred and sixty gallons, in the whole, of kerosine oil, petroleum, naphtha, turpentine, or other volatile fluid or fluids shall be placed or retained at any one and the same time in any one building or place occupied by the same person or persons, unless in a building which shall be situated at a distance of not less than one hundred feet from any other building, and which shall be of the description following, that is to say:—Either a shed divided into compartments of moderate dimen-

sions, well ventilated at the top, and having the floor thereof sunk to any depth that may be preferred, not being less than three feet, and being surrounded by an area of two feet wide, and of depth and capacity sufficient to contain the surplus fluid contents of such shed over and above the quantity thereof which would be contained by the space between the sunken floor and the ground level; or a ground floor shed properly ventilated at the top, surrounded by a trench three feet deep by two feet wide, at a distance equal to the height of the walls of such shed, having guiding drains into the said trench, and surrounded beyond such trench by a brick wall without break or opening, and of not less than one half of the height of the walls of such shed.

2. Any person who, being the occupier, or having the use and control of any building or place, of whatsoever description, within the city of Brisbane, not being a building situated and constructed in manner described in the first section of this bye-law, shall place, or cause, or permit to be placed, or allow to remain within such building or place, at any one time, a quantity of any one or more of the volatile fluids specified in this bye-law, greater in aggregate measure than one hundred and sixty gallons, shall, upon conviction of every such offence, forfeit and pay a penalty not exceeding twenty pounds: Provided that no second or after prosecution for the placing and retaining of any one and the same quantity of such fluids shall be commenced on the same day as the preceding complaint shall have been made.

3. For the more easy discovery of the keeping of fluids contrary to the provisions hereinbefore contained, it is further ordered: That it shall be lawful for any Justice of the Peace within and for the Colony of Queensland, on demand made, and a reasonable cause assigned upon oath, by any person or persons, to issue a warrant or warrants under his hand and seal, for searching in the daytime, any house, storehouse, shop, cellar, yard, wharf, or other building or place, in which fluid is suspected to be kept contrary to this bye-law.

4. Nothing herein contained shall apply to the storing of alcoholic spirits.

Colonial Secretary's Office,
Brisbane, 21st December, 1874.

HIS Excellency the Administrator of the Government has directed the subjoined Circular Despatch, received from the Secretary of State for the Colonies, relating to the state of the law in respect of Certificates of Naturalization granted in the United Kingdom under the Imperial Acts of 1844 and 1870, to be published for general information.

A. MACALISTER.

[CIRCULAR.]

Downing street,
10th September, 1874.

SIR,—In consequence of an application made to this Office by a gentleman naturalised in 1873 in this country to be allowed the rights and privileges of a British Subject in Gibraltar, the opinion of the Law Officers of the Crown has been taken as to whether Certificates of Naturalization granted in the United Kingdom extend to the Colonies.

2. The Act 7 and 8 Vict. (1844), c. 66, sec. 6, provided that upon obtaining the certificate, and taking the oath therein mentioned, every alien then residing in, or who should thereafter come to reside in, any part of Great Britain or Ireland, should enjoy all the rights of a British Subject. The Act 10 and 11 Vict., c. 83, sec. 3, expressly enacted that the above Act of 1844 should not extend to the Colonies. The Act 33 Vict. (1870), c. 14, sec. 7, enacted that an alien to whom a Certificate of Naturalization should be granted, should, in the United Kingdom, be entitled to all political and other rights, &c., of a British Subject.

3. Her Majesty's Government are advised that the operation of the above enactments is clearly confined to the United Kingdom, and that a Certificate of Naturalization, granted under either of the Acts of 1844 or 1870, confers upon an alien no rights or privileges in a British Colony.

4. As this subject is one of general interest, and with a view to remove any doubts which may exist in the Colony under your Government upon the point, I have thought it desirable that the state of the Law should be made known in a Circular Despatch to all the colonies.

I have, &c.,
CARNARON.

THE Excellency the Administrator of the Gov- ernment, with the advice of the Executive Council, has been pleased to rescind clauses 21 and 26 of the Gold Fields Regulations published in the *Government Gazette* of 1st October last, and to establish the following Regulations, under the provisions of "The Gold Fields Act of 1874."

H. E. KING.

REGULATIONS.

1st. The holder of any miners' right is entitled to occupy and enclose, for the purpose of residence, an area of land not exceeding one quarter of an

acre, to be marked off in a rectangular block, or as near thereto as possible, the frontage of which to any road, creek, or water, shall not exceed seventy-two feet (72 ft.), the boundaries to be defined by corner pegs three inches in diameter, and standing eighteen (18) inches out of the ground.

2nd. When the owners of any claim or gold mining leasehold, by the erection of any appliance for drainage, can show that they have effected a saving of labor in adjoining claims or gold-mining leasehold, the owners of adjoining claims or gold-mining leaseholds deriving such benefit shall be liable to pay in respect thereof, to the owners of such appliance, such reasonable sum or sums of money, and at such times as may be ordered by the Warden.

3rd. Any miner or miners who have done six consecutive months' work in any registered claim, which is then not deemed payable under the Regulations, may apply to the Warden (after having posted a notice on the claim of his or their intention so to do, three clear days before making the application), to have his or their claim exempted from work for any period not exceeding six months, for any *bona fide* and sufficient reasons to be stated in the notice posted, and in the application to the Warden, and the Warden, if satisfied that the grounds upon which the application is made are good and sufficient, may register the claim as exempt from work for any period not exceeding six months, upon payment of a fee of ten shillings.

4th. Any shareholder in a registered claim who may desire to abandon his share or interest therein, may give to one of the remaining shareholders, and also to the Warden, a notice in writing to that effect, and may post a copy thereof on a conspicuous spot near the working shaft of such claim, and in such case the Warden, after satisfying himself that notice has been given in manner aforesaid, shall forthwith cancel the registration by which such share has been held, and the said shareholder shall thereupon be released from all further liability in respect of such share thereafter incurred.

The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

MUNICIPALITY OF CLERMONT.

WHEREAS by "The Municipal Institutions Act of 1864," section 70, it is amongst other things enacted that the Council of any Municipality may make bye-laws for the regulation of their own proceedings: And whereas, by the 74th section of the said Act, it is further enacted that such bye-laws, when confirmed by the Governor, with the advice of the Executive Council, and published in the *Government Gazette*, but not sooner or otherwise, shall have the force of law: And whereas the Council of the Municipality of Clermont have, under the power hereinbefore recited, made the following bye-laws for the regulation of their own proceedings and other matters; and the said bye-laws, having been duly confirmed by the said Governor, with the advice of the Executive Council, under his hand, in accordance with the said Act: the same are hereby published in the *Government Gazette*.

A. MACALISTER.

Bye-laws of the Municipality of Clermont, made by the Council of the Municipality of Clermont for the Regulation of the various Proceedings hereinafter mentioned, made and passed at a regular Meeting of the Council, held 15th August, 1874.

WHEREAS it is expedient that provision should be made for regulating the proceedings of the Council of the Municipality of Clermont, and for other purposes hereinafter mentioned: It is hereby ordered that the said Council, by virtue of the powers and authority vested in the said Council in that behalf, that the following shall be the standing orders and general rules and bye-laws for regulating the proceedings of the said Council, and for other purposes hereinafter mentioned.

DUTIES OF CHAIRMAN.

1. If at any meeting of the Council duly held, the Mayor shall be absent at the expiration of fifteen minutes after the time appointed for holding the meeting, the members present shall choose for that meeting a Chairman from amongst themselves.

2. The Chairman may take part in all the proceedings of the Council.

3. All questions duly proposed shall be put by the Chairman, and the sense of the Council thereon shall be taken and declared by him.

4. Every such question shall be put first in the affirmative, and then in the negative; and this may be done as often as the Chairman may deem necessary for enabling him to determine which side has the majority.

5. If two or more members rise to speak at the same time, the Chairman shall decide which of them is entitled to pre-audience.

6. The Chairman shall preserve order, and his decisions on disputed points of order shall be final.

ORDER OF BUSINESS.

7. The business of each ordinary meeting of the Council shall be transacted in the following order:—

- (1.) The reading and confirmation of the minutes of previous meetings.
- (2.) The reading of official correspondence.
- (3.) The presentation of petitions.
- (4.) Reports brought up by committees.
- (5.) Questions to be asked.
- (6.) Miscellaneous business.
- (7.) Motions of which notice has been given.
- (8.) Notices of motion.
- (9.) Orders of the day.

8. The question for confirming the minutes of the previous meetings shall be proposed by the Mayor immediately upon their being read, and such proposition shall be to the effect that—"The minutes now read are a correct record of the proceedings;" and no discussion shall be allowed thereon, except upon a point of accuracy.

9. Orders of the day shall comprise all business set down for the day by order of any previous meeting, or necessarily arising out of the proceedings of a former meeting.

RULES OF DEBATE.

10. Every person shall stand when speaking, and shall address the Chair.

11. Except in committee, no member shall speak more than once upon the same question, except in explanation when misrepresented or misunderstood. Provided, however, that the mover of any question shall be allowed the liberty of reply; and provided, further, that every member shall be at liberty to speak once on any amendment, as well as on the original motion. But the right of reply shall not extend to the mover of an amendment.

12. No member shall speak upon any motion or amendment for a longer time than fifteen minutes, unless by permission from the Council.

13. No member shall digress from the matter under discussion, nor make personal reflections on members, or impute motives.

14. When any member shall use any expression which the Chairman shall think capable of being applied offensively to any other member, the member so offending shall be required by the Chairman to withdraw the expression, and to make a satisfactory apology to the Council.

15. Whenever any matter of order arises, it shall be taken into consideration immediately; and upon a member rising to order, he shall be heard, and the member who was speaking shall sit down until the question of order has been decided.

16. Any member may require the question under discussion to be read for his information at any time during the debate, but not so as to interrupt any other member when speaking.

17. A debate may be adjourned to a later hour of the day, or another day specified; and the member upon whose motion the debate is adjourned shall be entitled to pre-audience on the resumption of the debate.

MOTIONS.

18. No member shall make any motion initiating a subject for discussion but in pursuance of a notice openly given at a previous meeting of the Council, and duly entered on a notice-paper, with his signature thereto; but it shall be competent, on the presentation of any document except a petition, for the member presenting it to move without previous notice that a day be appointed for its consideration.

19. Motions shall take precedence of orders of the day, and may be moved or postponed in the order in which they stand on the notice-paper; otherwise such motions shall lapse.

20. No motion shall be put unless it is seconded.

21. When any motion has been proposed and seconded, it shall be the property of the Council, and shall not be withdrawn without the consent of the Council.

22. Any number of amendments may be proposed on a motion before the Council, and when more than one amendment is moved and seconded, the question shall first be put on the last amendment, and then on the next one to the last, and so on, in the inverse order in which they are moved: Provided, however, that when such motion or amendment shall relate to the fixing of salaries, rates, or other matters of finance, the lowest sum shall be put first, then the next lowest, and so on to the highest.

23. Any motion for adjournment, if seconded, shall be put immediately, without discussion, but if such motion be negatived, it shall not be competent for any member to make a similar motion until at least half-an-hour shall have elapsed from the period of moving the one negatived.

24. No motion, the effect of which, if carried, would be to rescind or be repugnant to any resolution which has been passed by the Council, shall be entertained during the same municipal year; and no motion, if negatived by the Council, shall be again entertained during the same municipal year, unless in either case a call of the whole Council has been duly made for the purpose.

PETITIONS.

25. It shall be incumbent on any member presenting a petition to acquaint himself with the contents thereof, and to report to the Council that it does not contain any disrespectful language.

26. On the presentation of a petition, no debate shall take place, and the only question that can be entertained by the Council shall be that the petition be received, or that it be referred to a committee. Provided, however, that any petition which has been received by the Council may be taken into consideration upon notice of motion in the usual way.

27. Every petition received by the Council shall be received only as the petition of the person or persons whose name or names it bears; and no petition shall be received unless at the least one signature be upon the sheet containing the petition.

COMMITTEES.

28. In a committee of the whole Council, the general rules of the Council shall be observed, except the rule limiting the number of times of speaking.

29. No select committee shall consist of less than three members; and the majority of the whole number, or one-half when the whole number is even, of any select committee shall, at meetings duly held, form a quorum.

30. Every select committee of which the Mayor of the municipality is not a member shall choose its own Chairman, and the Chairman of that committee shall be the convener thereof, and may direct the Town Clerk to call meetings of the committee whenever he may think fit.

31. Every report of a committee shall be signed by the Chairman thereof.

32. When the report of a select committee is brought up and presented to the Council, the question of its reception may be moved and put at once, but it shall not be adopted or taken into consideration without notice in the usual way.

33. There shall be two standing committees, to be called respectively "The Committee of Finance" and "The Committee of Works."

34. The standing committees shall be appointed for the municipal year at the first meeting of the Council after the election of a Mayor of the municipality, and any vacancies occurring therein during the year shall be filled up by the Council.

35. All reports of committees shall be fairly written upon foolscap paper, for the convenience of filing or binding.

FINANCE COMMITTEE.

36. The Mayor of the municipality shall be *ex-officio* the Chairman of the Finance Committee.

37. No matters of accounts shall be disposed of by the Council until they have been examined and reported on by the Finance Committee.

38. No payments out of the funds of the Corporation shall be made but such as are authorised by a vote of the Council. Provided always that the Committee of Finance may, on its own discretion, authorise disbursements of current expenses to any amount not exceeding five pounds (£5) in any one week; and provided, further, that in cases of emergency, the Mayor, with the consent of any two aldermen, may authorise the expenditure of any sum not exceeding fifty pounds (£50) in all during a recess. But all such discretionary payments, whether by the Committee of Finance or the Mayor, shall be reported to the Council at its next meeting.

39. All drafts upon the funds shall be signed by the Mayor and one other member of the Finance Committee, and countersigned by the Town Clerk; except that in cases of emergency as hereinbefore provided for, drafts may be signed by the Mayor and any two aldermen, and the countersignature of the Town Clerk may be dispensed with.

COMMITTEE OF WORKS.

40. No public works, involving a probable expenditure of more than fifty pounds (£50) shall be undertaken until the Committee of Works have reported to the Council an estimate of the cost thereof.

41. All accounts against the Corporation relating to works shall be examined by the Committee of Works, and such as are found correct shall be certified and passed to the Committee of Finance.

MAKING BYE-LAWS.

42. No bye-law shall be finally passed or adopted at the meeting at which it shall have been first proposed, nor until the next meeting of the Council regularly convened, and every such bye-law shall, in the interim, remain open for the inspection of any of the ratepayers in the Town Clerk's office, free of charge.

43. All bye-laws, when passed by the Council, shall be signed by the Mayor, and countersigned by the Town Clerk.

44. All bye-laws, when confirmed and published as required by law, shall be fairly transcribed into a book to be kept for that purpose, signed by the Mayor, and countersigned by the Town Clerk, and the said book shall, at all reasonable times, be open to public inspection.

MISCELLANEOUS.

45. Whenever the Council is adjourned for want of a quorum, the name of the members then present, and the hour at which the adjournment takes place shall be entered on the minutes.

46. Any member may record his protest against any decision of the Council, provided the protest be handed to the Town Clerk not later than the next Council meeting; and provided, also, that notice of the intention of any members present to protest be given immediately on the passing of the resolution to which the resolution refers.

47. The Common Seal, and all charters, deeds, muniments, and records of the Corporation shall be kept in the office of the Town Clerk, and in his custody; and such seal, and charters, deeds, muniments, and records shall be securely kept under lock and key in the said office, unless for any special reason the Council shall otherwise order.

48. The Common Seal shall not be affixed to any document without the express authority of the Council, and every impression so authorized shall be verified by the signature of the Mayor and Town Clerk.

49. No officer of the Corporation shall be at liberty to show, lay open, or expose any of the books, papers, or records of the Corporation to any person other than an alderman without leave from the Council, except as otherwise provided by law.

50. In cases where security is required by "The Municipalities Act of 1864," or any other Act on that behalf, no sureties shall be accepted otherwise than by a vote of the Council; and it shall not be competent for the Council to accept as surety any of its own members, nor any person holding office in the Corporation.

51. Any one or more of the standing orders may be suspended, *pro tempore*, in case of emergency, if a majority of the Council then present shall consider such suspension to be necessary.

52. Any councillor or officer of the Corporation offending against any of the foregoing provisions of these bye-laws by refusal, neglect, or otherwise, shall forfeit and pay a sum not exceeding five pounds (£5).

Provided that every such verandah, shade, or awning shall be erected with upright posts or columns, and shall not project beyond the outside edge of the kerbstone, or other boundary of the footpath, in front of any shop, dwelling-house, or other premises, to which such verandah, shade, or awning shall be attached, and
